

10 Facts About Lab Gas Servers

SAFE GAS GENERATORS THAT SERVE ALL LAB NEEDS

As few as **10** & as many as **200+**
gas chromatographs can be supported by
a single hydrogen Lab Server

worldwide
installation
base

25:1

ratio of hours
saved on delivered
gas supply
logistics

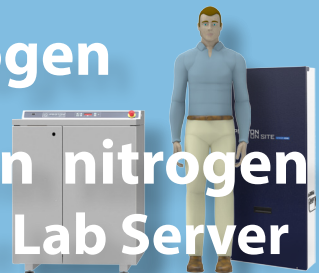

less than
4
hours of annual
maintenance
required per
Lab Server

1 hydrogen cylinder has
the explosive capacity
of **35** lbs of TNT

Lab Servers
eliminate
the risk

4800 - 18,800 cc/min hydrogen
& **250,000 - 400,000** cc/min nitrogen
generated on-demand from a single Lab Server

Lab Servers
protect staff
from incident or injury

99.9999+ %
UHP hydrogen
generated via Lab Servers
